ABOUT

Software engineer interested in Algorithms, Robotics, Artificial Intelligence, and Human.

WORK EXPERIENCE

07/2019 - Present

Avokado Lab, Seoul, Korea

Robotics Software Engineer

- Building a software for robotic kitchen
- Develop kitchen automation technology
- Develop restaurant management system

EDUCATION

03/2014 - Present

Seoul National University

Undergraduate, College of Liberal Studies

- Mathematics
- Computer Science and Engineering

09/2019 – 12/2019

Udacity

Robotics Software Engineer Nanodegree

SCHOLARSHIP

03/2014 - Present

The Presidential Science Scholarship

- Mathematics

SKILLS

Programming: C/C++, Java, Python, C#, ROS

Collaborate : Git, Github
